Experience:

(01.12.2022 TO 27.02.2023).

MakerMinds Internship Java

- **Key achievements:**
  - I participated in an internship project with MakerMinds where I developed a Java-based restaurant application. I collaborated with team members, contributing to regular meetings to discuss the project's status.

(08.08.2023 TO 31.10.2023)

MakerMinds WebDevs |

- **Key achievements:**
  - Recently, i completed a 3-month web development course where i honed skills in HTML, CSS and JavaScript, jQuerry, Ajax and NodeJs. Actively contributed to team projects, collaborating with members and engaging in regular progress meetings.
  - Also i take particular pride in my work on two standout projects, 'Restaurantista' link'' https://restaurantista-55s9.onrender.com '' and 'VehicleShop(Check on GitHub),' which showcase my ability to apply a diverse range of technologies to create dynamic and functional web applications.

MakerMinds Internship Web |

- **Key achievements:**
  - During my web development internship, I diligently mastered key technologies including ReactJS, NodeJS for RESTful APIs, ExpressJs, Redux, JSON, PostgreSQL, and more. Applying these skills in projects like WorkForce Pro and a Restaurant Application, I showcased my capability to create dynamic web solutions, cementing a strong foundation for my career in web development.
